Professional Summary

Frontend Engineer with 2+ years of professional experience designing and developing scalable, production-grade web applications using React.js, Next.js, Vue.js, Nuxt.js, and TypeScript. Experienced in building enterprise dashboards, task management platforms, AI-powered chatbot systems, and large-scale e-commerce applications.

Strong understanding of component-driven architecture, reusable design systems, REST API integration, state management, server-side rendering (SSR), client-side rendering (CSR), authentication workflows, and frontend performance optimization. Experienced in collaborating with cross-functional teams using Agile methodologies and Git-based development workflows.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Node.js

Frontend: React.js, Next.js, Vue.js, Nuxt.js, React Hooks, Next.js App Router, Responsive Design, Component-Based Architecture

State Management: Redux Toolkit, Zustand, Vuex, Context API

UI & Styling: Tailwind CSS, DaisyUI, BootstrapVue, SCSS, CSS Modules, Material UI, Figma

Backend & APIs: Express.js, REST APIs, Axios, Fetch API, Authentication, Form Validation, File Upload Handling

Databases: MongoDB, MySQL

Performance & Security: SEO Optimization, Lighthouse Auditing, SSR/CSR Strategies, Lazy Loading, Code Splitting, Rate Limiting, CORS, Input Validation

DevOps & Tools: Git, GitHub, Docker, Docker Compose, Vercel, Railway, Netlify, Postman, Jira, Chrome DevTools, VS Code

Professional Experience

Frontend Engineer

Apr 2024 – Present

Trigital Technologies Pvt. Ltd.

- Developed enterprise-level web applications using Vue.js, React.js, and modern frontend architectures.
- Built task management and workflow tracking applications inspired by Jira and ClickUp, including dynamic task cards, dashboards, reusable components, and API-driven workflows.
- Developed production-ready chatbot systems with multi-step conversation flows, dynamic payload handling, session management, and multilingual support.
- Built and maintained large-scale e-commerce platforms with product listings, product variants, cart, wishlist, check-out, and order management workflows.
- Integrated REST APIs, authentication systems, internationalization (i18n), and optimized frontend data handling.
- Improved application performance using lazy loading, optimized rendering, efficient state management, and code splitting.
- Collaborated with backend developers, UI/UX designers, and project managers in Agile development cycles.

Projects

PDF Lab – Open Source PDF Processing Platform

Next.js, TypeScript, Express.js, Node.js, Docker, qpdf, Ghostscript, ImageMagick

- Built a full-stack PDF processing platform supporting merge, split, compress, convert, watermark, lock, and unlock operations.
- Designed secure backend services using Node.js child processes with safe argument handling to prevent shell injection vulnerabilities.

- Implemented file validation, rate limiting, CORS configuration, temporary file cleanup, and Docker-based deployment.
- Developed scalable REST APIs and optimized file processing workflows.

Enterprise Task Tracker
React.js, Next.js, TypeScript, Tailwind CSS, REST APIs

- Developed a modern project management platform inspired by Jira and ClickUp with responsive dashboards and reusable UI components.
- Implemented task management workflows, Kanban-style interfaces, filters, user-based task organization, and seamless backend integration.

Additional Projects

Production E-Commerce Platform
Vue.js, Nuxt.js, Vuex, Tailwind CSS

- Developed customer-facing e-commerce applications serving real users with responsive and SEO-friendly interfaces.
- Implemented product browsing, search, product variants, cart management, wishlist, checkout, and order workflows.
- Improved performance and SEO using Nuxt.js server-side rendering techniques.

AI Powered Chatbot Platform
Vue.js, JavaScript, REST APIs

- Built dynamic chatbot interfaces with structured conversation flows, API-driven responses, reusable components, and multilingual support.
- Implemented option-based interactions, session handling, and optimized user experience for different business domains.

Trigital Technologies Official Website
Next.js, Tailwind CSS, DaisyUI, Figma

- Designed user interfaces in Figma and developed a modern SEO-optimized company website using Next.js.
- Built responsive layouts, reusable components, and improved website performance and accessibility.

Core Strengths

- Strong understanding of modern JavaScript ecosystem and frontend engineering principles.
- Experience working with production deployments, Git workflows, code reviews, debugging, and cross-team collaboration.
- Ability to translate UI/UX designs into reusable, scalable, and maintainable applications.

Education

Master of Computer Applications (MCA) Uttarakhand Technical University	2024
Bachelor of Arts (BA) Kumaon University	2022
